

Create A Database In Cloudant DB

Team ID:PNT2022TMID41127

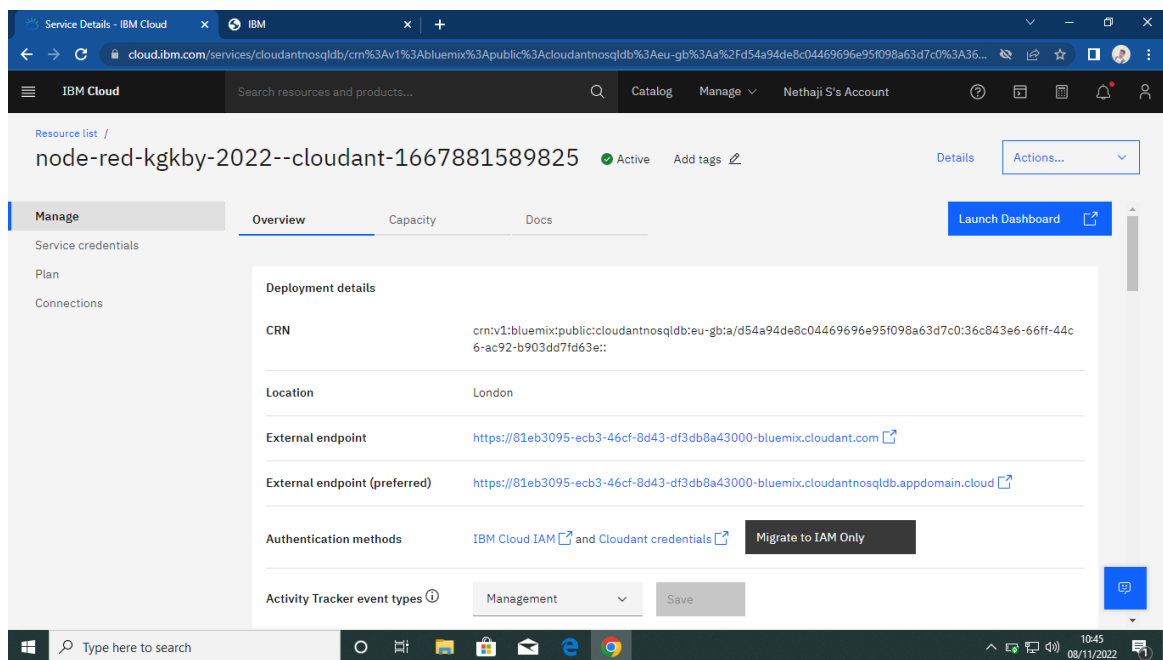

Project : IOT Based Smar waste management for metropolitan cities

Aim:

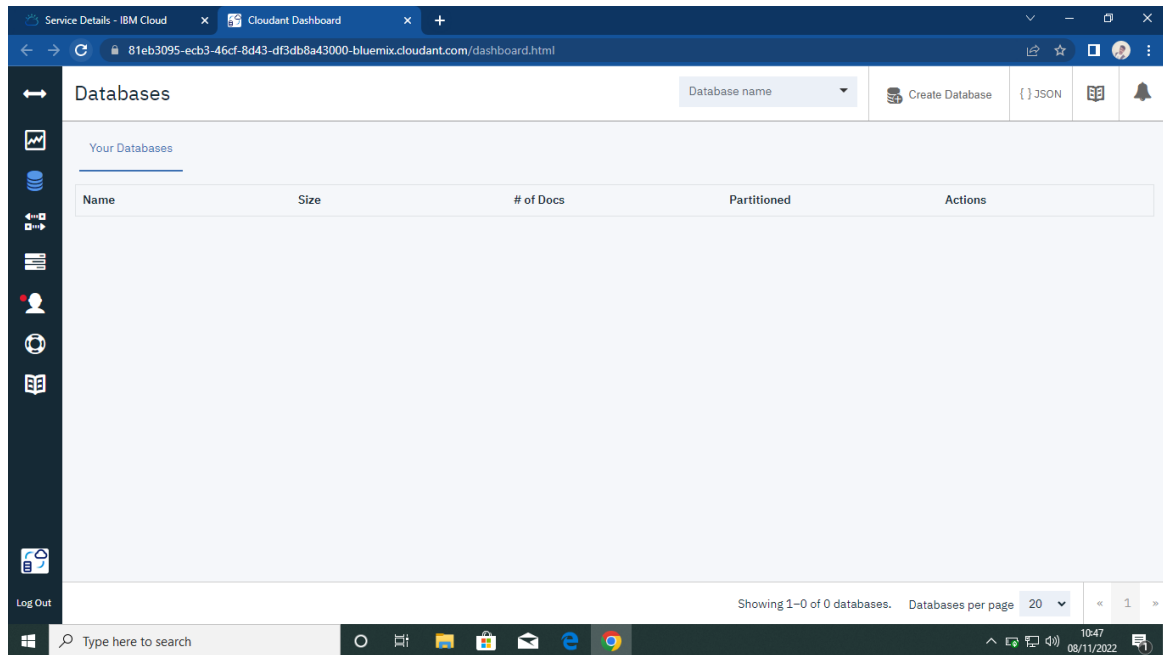

To create a database in Cloudant DB to store location data.

Steps:

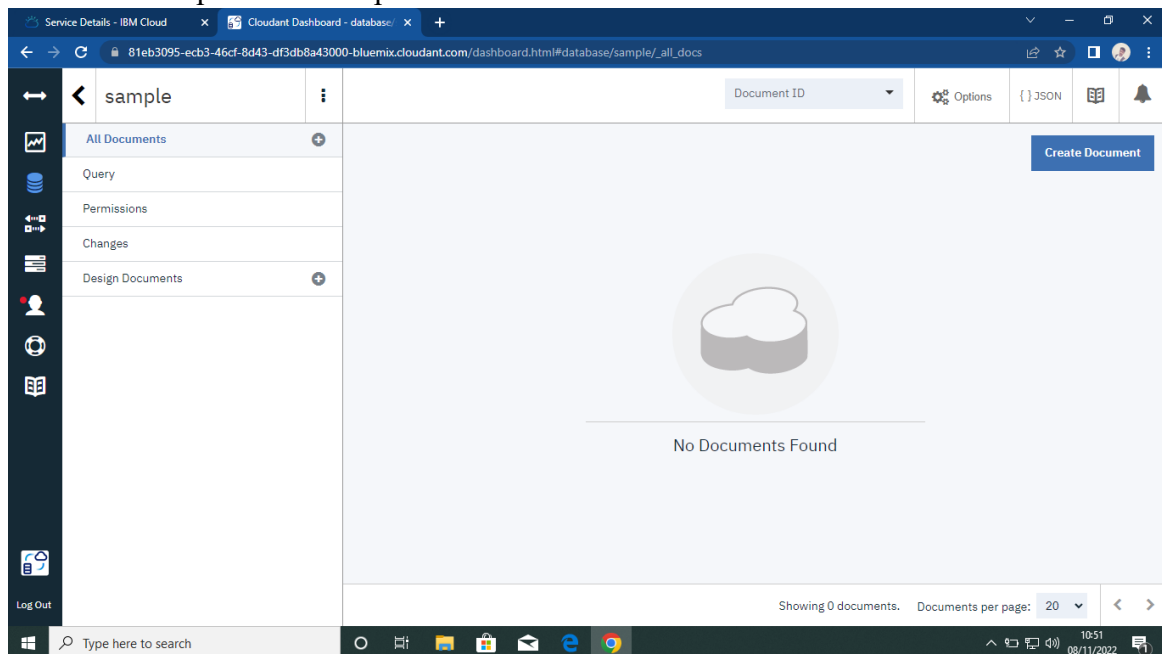

- ❑ Logged in to IBM Cloud account
- ❑ Navigated to `./resources`
- ❑ Clicked on the “Create Resource +” button
- ❑ Searched for “Cloudant”
- ❑ Chose the “Lite Version” and clicked on “Create”
- ❑ The Cloudant database resource was created successfully

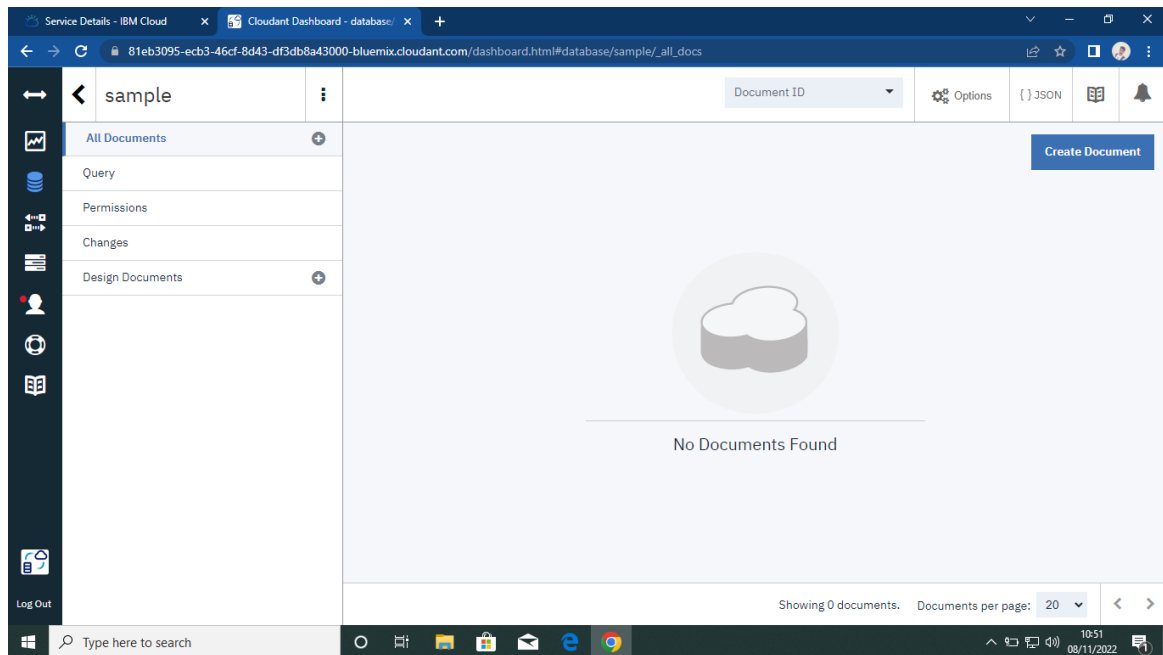

□ Clicked on Launch Dashboard.

□ Clicked on “Create Database”. Entered “Sample” as the database name and the “Non-partitioned” option.

The database “Sample” was created successfully.

Result:

A database to store the location data was created successfully on CLOUDANT DB.
